1. FIRST SECTION

PRESENTATION OF THE COMPANY

Dear User

The Laboratorio Analisi Guidonia was founded in 1976 in the district of the ASL RM / G as Laboratorio Analisi Guidonia as an accredited laboratory (affiliated) with the National Health Service.

Since it was created, it has experienced continuous growth in size, in the number of patients and in the constant search for the technical and scientific quality of the clinical tests performed.

Guidonia Montecelio is the third most common largest of Lazio nti number of lives, the total population is 89,288 inhabitants, of which 50.5% were female and 49, 5 males. The percentage of foreign citizens is predominantly Romanian.

In 2002, The Laboratory Analysis Guidonia has opened a section of Chemistry and Toxicology at judicial use and has become the referral laboratory of the Public Prosecutor at the Ordinary Court of Tivoli.

It is a Highly Qualified Research Laboratory registered in the MIUR (Ministry of Education of the University and Research).

During the year 2010 The Laboratorio Analisi Guidonia has obtained the accreditation with the ASL RM / G, RM / E and ASL Rieti for the execution of second level toxicological assessments, in compliance with the DGR 332/2009. The analyzes that are not carried out on site are carried out at external centers chosen by the laboratory which guarantees its reliability .

In 2014, the Laboratorio Analisi Guidonia , was acquired by the Lifebrain Group, consisting of a network of laboratories and professional skills that covers the entire peninsula and now has more than 180 structures including laboratories and collection points.

C with Lazio Regional Resolution No. G1 8631 starting from January 2018 it has become the reference HUB of Lazio of the Roman Diagnostic Network.

The concentration of the analytical phase in a dedicated structure takes place due to the need to improve the use and management of resources according to the principles of flexibility, efficiency and optimization and thus achieve a further improvement in the quality of the services provided.

Starting March 25, 2019, the Laboratorio Analisi Guidonia has changed its name to LIFE BRAIN SRL

MISSION

The institutional purpose of the Laboratories is to provide health services to the population of their own territory, according to the methods envisaged by national and regional health plans using Organizational Models compliant with the Rules, therefore the Management has identified as a mission for Lifebrain Sr l the provision of a service aimed at full patient / user satisfaction. The main useful tool for achieving this mission is the maintenance of a high level of quality, guaranteeing the right to the provision of a health service aimed at excellence. To this end, the Laboratory has always been committed to improving its services, aiming to meet the needs and requirements of patients in terms of quality, reliability, safety, timeliness, punctuality and flexibility.
